

**MAQUET LAUNCHES ORCHIDE,
Operating Room Camera High DEfinition**

Ardon, November 2008.

Having been exclusively developed for the general public for years, High definition quality is now entering into the medical world. Indeed, with ORCHIDE (Operating Room Camera High DEfinition), a brand new full HD camera launched last November at the MEDICA exhibition in Düsseldorf (Germany), MAQUET proposes an innovative tool to improve the medical staff vision and secure surgical procedures.

SHARING KNOWLEDGE IN FULL HD QUALITY

ORCHIDE offers 2Mio. pixels, a resolution 5 times higher than conventional ones.

- Realistic and fluid 3D images.
- High colour accuracy to distinguish subtle différences in colour and texture.
- Invisible reflections from stainless steel.
